	Resources for the next day will be added to TEAMS – we endeavour to do this by 1pm the day before.				Next weekly plan-added to TEAMS assignments and to the school website.

We understand that everyone is in a different position in terms of home learning and how much your child can achieve in a day/week. We want to reassure you that this model is a best fit guide for the year group. If your child can't access all of the live TEAMS meetings due to siblings needing IT access/parents working from home or any other reason we completely understand. We will record all sessions so they can be watched at your convenience and we have added links to useful videos / PowerPoints for each subject, so the learning can be done at a pace that your household allows. If you have any difficulties with any of the plans/resources/ or any other queries, please contact us via email. We are here to support children and parents and we know you are all doing your best to access as much home learning as possible.

These are Optional extras for children who are working through activities at a fast pace/want to be kept busy:

**Maths:**
