

Shabbat dinner table

The film clips you watched told you lots of things about the Jewish day of rest called Shabbat. In the box above draw some of the things that you would find on a Shabbat dinner table. You could watch the films and pause them when it shows a picture of the table set out for the Shabbat meal to help when you are drawing. Around your picture add labels and descriptions of the items. Next add some speech bubbles saying what Jewish people are remembering at Shabbat. You could also add in extra things you have found out about Shabbat.
