Codingbug
inspiring the next generation of coders & makers

Coding Club in School (Term 5)

Yatton Juniors (Years 3 - 6)

Wednesdays 3:25 - 4:25pm (in school)

At coding club the children learn computational thinking, the fundamentals of computer programming and digital skills. They also learn to collaborate with each other in a fun and friendly environment. The lessons are tailored to suit different year groups.

The children use the Scratch programming language to create games and stories using their favourite characters. They learn about algorithms, problem solving and debugging. They also use a variety of fun coding puzzles to develop computational thinking skills.

The club is suitable for all - both beginners and more advanced coders.
